3:05PM	Keynote Speaker & Q/A Rex Murphy	60MIN
4:00PM	Wrap Up & Door Prizes	15MIN
4:15PM	Closing Reception	30MIN

Rex Murphy
KEYNOTE SPEAKER

Canadians are treated to weekly commentary from Rex on CBC's The National along with his Saturday column in the National Post. He's also acted as an editorial contributor to CBC Radio's Definitely Not the Opera. For over 20 years he was the host and moderator of CBC Radio's Cross Country Checkup. The show brought over 1 million listeners and at times 15,000 callers wanted to join the discussions.

As a speaker, Rex radiates intelligence and trustworthiness. His endearing style brings forth a sarcastic intellect and deep insight into issues affecting individuals and businesses.

Audiences can expect to be simultaneously informed and entertained by Rex's provocative commentary. He knows what makes Canadians tick, and what drives our political and social affairs. Rex makes us important and reminds us we have culture beyond hockey. His thought-provoking, sometimes stinging commentary and original insights are delivered through a vocabulary to make Webster's consider updating.

A Rhodes scholar, Rex was born and raised in St. John's, Nfld., where he graduated from Memorial University. In 1968, he went to Oxford University, along with former U.S. President Bill Clinton. Rex later ran twice in provincial elections and lost both times. Maybe he was too honest?

FEATURED SPEAKERS

Bob Masterson

PRESIDENT AND CEO, CHEMISTRY INDUSTRY ASSOCIATION OF CANADA

Bob Masterson is President and Chief Executive Officer of the Chemistry Industry Association of Canada (CIAC).

Reporting to the Boards of Directors, he is fully responsible for executing the strategic direction and ongoing operations of the Association, and for directing staff to accomplish organizational priorities as they create value for member-companies and partners.

Bob joined CIAC in 2010. He is the former Vice President of Responsible Care®, the industry's globally recognized sustainability initiative. Under his leadership, Responsible Care

enacted a new set of sustainability principles and guidelines for Canada's chemistry industry.

He is former Director, Regulatory Affairs with the Cement Association of Canada and for 15 years was a consultant on environment and sustainability issues in a number of industry sectors, including forest products, electricity, cement, mining and energy.

Bob holds an engineering degree from Queen's University and a Master of Public Policy from Carleton University. He is extremely proud of the three years he spent as a volunteer teacher in Nigeria. Bob lives in Alymer, Quebec, on the shores of the Ottawa River, with his wife and two children. When not at the office he's often found pursuing his outdoor passions of canoeing, hiking and wilderness camping.

Honourable James Moore PC, MA

SENIOR BUSINESS ADVISOR, DENTONS

James Moore is a Senior Business Advisor at the multinational law firm, Dentons, and a Public Policy Advisor at the global firm, Edelman. He also serves as Chancellor of the University of Northern British Columbia, is the national vice-chair of the

Canadian Cancer Society, a member of the NAFTA Council for the Government of Canada and a corporate director.

Previously, he served as Canada's Minister of Industry, Minister of Canadian Heritage & Official Languages, and Secretary of State for the Asia Pacific Gateway, and Minister for the 2010 Olympics. He was chair of the Cabinet

Committee on Economic Prosperity and Vice Chair of the Operations and Social Affairs Cabinet Committees, and served as the Senior Regional Minister for the Province of British Columbia.

A Member of Parliament for 15 years, James is the youngest Member of Parliament and Cabinet Minister in British Columbia's history, the youngest Regional Minister in Canadian history and the third youngest Cabinet Minister in Canadian history.

He is a past member of the Trilateral Commission and was named a Young Global Leader by the World Economic Forum. Fluently bilingual in french & english, James holds a Bachelor's Degree from the University of Northern B.C. and a Master's Degree from the University of Saskatchewan.

PLATINUM SPONSORS

ATCO

For more than 100 years, ATCO has been privileged to provide critical services to more than 350 communities throughout our home province of Alberta. Serving and investing in Alberta's Industrial Heartland since 1948, ATCO builds, owns and operates water and energy infrastructure, providing premier industrial water solutions, energy and storage logistics, natural gas transmission and distribution, and electricity generation and transmission to our customers.

Today, we are building on that foundation by developing additional salt cavern storage facilities at the ATCO Heartland Energy Centre and proposing both the ATCO Heartland Generating Station and Strathcona Cogeneration Plant in Strathcona County.

ATCO is...Energizing Alberta's Industrial Heartland.

GEMINI

harnessing energy

Gemini is a professional services firm that has been providing multi-disciplined engineering and field solutions for energy and industrial facilities since 1982.

We are a public company headquartered in Calgary, Alberta with field offices in Ponoka, Fort Saskatchewan and Fort. St. John, B.C.

Gemini combines engineering expertise with our field services capabilities to provide integrated project delivery solutions for our clients.

Gemini is capable of servicing projects from beginning to end - from regulation and engineering, fabrication and construction management, to maintenance. We pride ourselves on successfully executing projects that are safe, high quality, cost effective and on-schedule.

PEMBINA

Calgary-based Pembina Pipeline Corporation is a leading transportation and midstream service provider that has been serving North America's energy industry for over 60 years.

Pembina owns and operates pipelines that transport various hydrocarbon liquids, including conventional (diluent) and natural gas liquids produced in Western Canada and ethane produced in North Dakota.

Pembina's integrated assets and commercial operations enable it to offer services needed by the energy sector along the hydrocarbon value chain.

Pembina is a trusted member of the communities in which it operates and is committed to generating value for its investors by running its businesses in a safe, environmentally responsible manner that is respectful of community stakeholders.

SPARTAN Controls

Spartan Controls Ltd. is the recognized leading provider of automation, valves, measurement and process control solutions in Western Canada. Our unique partnership with Emerson and other leading solution providers enables us to connect our customers with world-class technology, superior technical expertise and full lifecycle services.

We are a Canadian, employee-owned company with project experience spanning multiple industries.

Our single point of contact reduces cost, improves the customer experience and allows us to quickly apply solutions and services to meet our customer's automation challenges head-on.

CANADA KUWAIT PETROCHEMICAL CORPORATION

Canada Kuwait Petrochemical Corporation ("CKPC") is a joint venture between Pembina Pipeline Corporation and Petrochemical Industries Company K.S.C. of Kuwait.

CKPC is in the front-end engineering design (FEED) phase of developing a world-scale integrated propane dehydrogenation and polypropylene upgrading facility in Sturgeon County, Alberta.

The project remains subject to a positive final investment decision from each partner of the joint venture, as well as regulatory and environmental approvals.
